What's a 'knowledge broker'?

1. **Collaboration** – I help bring knowledgeable people together to collaborate.
2. **Curiosity** – I scan the horizons of research, modern thinking, and public policy.
3. **Clarity** – I summarise knowledge and ideas so others see the key points, accept, value and use it to clarify their personal and professional communications.

Core idea: - **The core of knowledge brokering is**

- getting people to talk to one another,
- keeping them updated,
- helping them communicate clearly in ways that stick.
